# DEFINITION OF TERMS

TERM	ACRONYM	DEFINITION
Basic Active		A Visionary Builder who purchased a VB pack of Premier, Essential, or Core, has a VB Kit and maintains personal 50 QV monthly.
Binary Active		Need to have a personally enrolled active on the left and active on the right. (See Basic Active for definition).
Binary Tree		The binary tree is based on a right leg and left leg. You may place VBs and customers that you enroll in any open node in your tree. Other Visionary Builders may place Visionary Builders (spillover) into your binary tree. Your downline will also enroll VBs and customers in the binary tree.
Enroller Tree		The enroller tree consists of VBs and customers that you have personally sponsored.
Residual Tree		The residual tree structure is also a placement tree. The tree looks at three legs, highest leg, second highest leg and then put all the rest of the legs together to get the third leg. If the third leg is larger than leg 1 or leg 2, it DOES NOT flip.
Commissionable Volume	CV	Value used to calculate commissions.
Qualifying Volume	QV	Each pack or product has qualifying volume used to qualify for ranks.
Retail Customer	RC	A customer who purchases through VB replicated site, or directly from the corporate site at Retail Pricing. Does not receive commissions.
Visionary Builder	VB	Purchases a VB kit either from monthly purchase or purchase with yearly pack, and personal 50 QV. VB earns commissions
Active Status		Active has a VB kit that is not expired (monthly or yearly VB kit) and personal 50 QV. The active VB status is paid commissions. The commission program uses statuses to determine if commissions are paid.
Pending Active Status		A VB moves to Pending status if VB Kit is expired. VB commissions are still accrued, however, they are not paid out. Once a VB kit is purchased and personal 50 QV is ordered, commissions are paid out.

# DEFINITION OF TERMS CONT.

TERM	ACRONYM	DEFINITION
Inactive Status		A VB is not active for 2 months. VB commissions are still accrued, however, they are not paid out. Once a VB kit is purchased and personal 50 QV is purchased, commissions are paid out.
Canceled Revert to Customer		After 3 months without a VB kit, the VB is downgraded to a customer. All earnings are removed and all binary volume is removed. A revert to customer can become a VB at any time by purchasing the kit and personal 50 QV.
Upgrade to VB		The upgrade process will show that they need VB kit and personal 50 QV.
Paid Rank Monthly		The rank that a member qualifies for during the current monthly period.
Paid Rank Weekly		The weekly is rank earned for the paid rank. Weekly paid rank looks at this month or last month whichever is higher that was last committed.
Rollover		Binary payout is paid on the weak side volume. Once weakside volume is paid on, the paid on volume amount is flushed on both legs. Any extra volume that is not paid on in the binary rolls over to the next week. If you are inactive for 3 months and revert to a customer, your binary volume is flushed.
Organizational Qualifying Volume	OQV	Organizational qualifying volume is all the volume (not including self) in one's personally enrolled tree. This does include customer volume.
Visionary Builder Kit	VB Kit	This provides tools, reporting, replicated e-commerce websites, and your business suite to manage your business.
